

# Read At Home

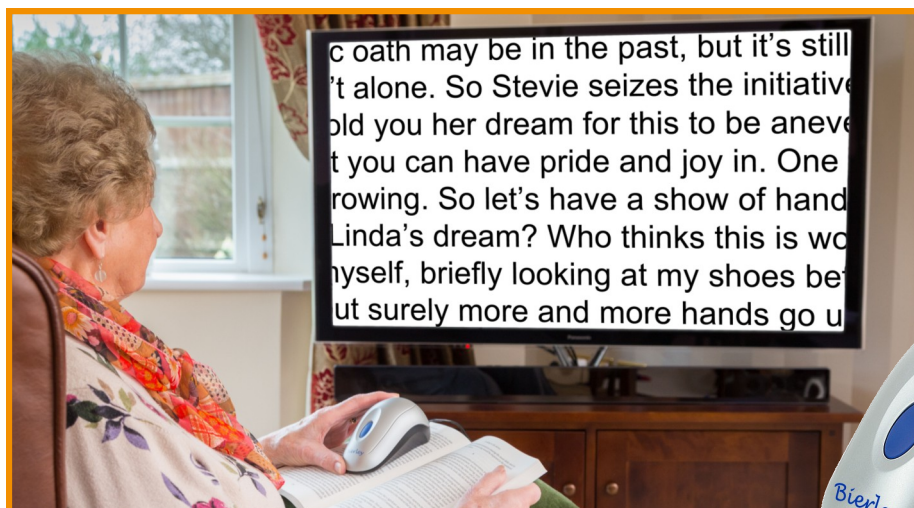

**Do you know someone who has difficulty reading small print, but would like to use the library?**

Our library now has an electronic aid, called a MonoMouse, available to borrow FREE of charge.

The MonoMouse works by simply plugging it in to your existing television and scrolling it over the text you wish to read (see image below).

The stylish device is specifically designed to allow people who have sight difficulties to read any book in the library.

**If you would like to try a MonoMouse, please ask any librarian or ask at front desk.**

**Another Great Service Available Only At Your Local Library**
